Trade-marks Journal

Vol. 62 No. 3186

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

GOODS

(1) Chemicals and chemical substances used in the chlorine industry, the plastics industry, the refrigeration industry, namely, chlorine and caustic soda; vinyls namely, polymers and polystyrene; unprocessed plastics and adhesives used in the plastic industry; chemical compounds of vinyls, namely vinyl acetate, vinyl chloride, polyvinyl chloride resins, vinyl chloride monomers; polystyrene resins; sequestrants; chemical additives for use in the manufacture of food; unprocessed plastics in all forms; adhesives for industrial use; fluorite

(2) Paints, namely anti-corrosive paint, anti-fouling paint, artist's paint, bactericidal paint, exterior paint, house paint, insulating paint, interior paint, non-slip paint, paint for industrial equipment and machinery; varnishes; finishing lacquers; inks; preservatives against rust and against deterioration of wood; raw natural resins; metals in foil and powder form for painters, decorators, printers and artists

(3) Bleaching preparations and substances, namely, designed for all purpose household cleaners and disinfectants, for laundry use, and bleaching salt; preparations and substances for laundry use namely, laundry bleach, laundry detergent, laundry soap, bluing agents for laundry, laundry starch and laundry wax; perfumery, cosmetics, hair lotions; dentifrices; cleaning, polishing, scouring and abrasive preparations and substances for household use, namely, all purpose household cleaners, toilet bowl cleaning preparations

(4) Industrial oils and greases; Industrial oils, namely, crude oil, fuel oil, motor oil, lubricating oils, diesel oil, oils for engines; industrial greases, namely, greases for machines, lubricating greases; lubricants, namely, all-purpose lubricants, automotive lubricants, industrial lubricants, lubricating oils; wetting and binding compositions, namely, petroleum based dust absorbing compositions for use in road building and dust laying and sweeping; fuels namely, gasoline, propane, diesel fuel, ethanol; candles; industrial oils, namely, paraffin

(5) Common metals and their alloys; pipes and tubes of metal for the construction industry; materials of metal for railway tracks; safes; ores

(6) Machines used in the production of chemical, petrochemical and oil production, namely, plastic processing machines and apparatus for PVC piping systems and fittings; catalysts for improving combustion

(7) Electronic apparatus and instruments, namely, electronic apparatus and instruments for use in the chemicals, oil, gas and power generation industries, namely, nuclear level gauges, vibration monitoring apparatus and instruments comprising vibration meters, accelerometer probes, capacitance-based filling level detectors and power frequency detectors and switches; electrical apparatus and instruments for use in the chemicals, oil, gas and power generation industries, namely, temperature thermocouples, pressure transducers, circuit breakers, co-generation powered electrical generators, transformers, electrical distribution apparatus and instruments, namely, power distribution panels, electrical switchgear, namely, voltage boosting devices for electric power lines, AMP indicators and voltage indicators; scientific apparatus and instruments, for use in the chemicals, oil, gas, and power generation industries, namely, Izod impact testers, Charpy impact testers, nuclear magnetic resonance spectrometers, tensile test apparatus and instruments comprising electronic apparatus for testing and measuring tensile characteristics of industrial materials, electron microscopes, PH test apparatus, namely, conductivity PH meters and PH meters for measuring temperature, conductivity meters, chlorine meters and electronic apparatus for testing the alkalinity of industrial materials; laboratory apparatus instruments, for use in the chemicals, oil, gas and power generation industries, namely, Fourier Transform Infrared spectrometers, melt indexers in the nature of plastometers, capillary rheometers, x-ray fluorescence spectrometers, gas chromatographs and liquid chromatographs; surveying chains, level rods for surveying, oil and gas downhole survey measurement and equipment; photographic apparatus and instruments, namely, photographic cameras, photographic exposure meters, photographic filters, photographic slides, photographic flash bulbs; optical apparatus and instruments, namely, optical apparatus and instruments for use in the chemicals, oil, gas and power generation industries, but not including video cameras for dental purposes, namely, optical microscopes, optical colorimeters, optical haze/clarity meters, particle size analyzers, pellet counters, turbidity meters and optical level switches; measuring apparatus and instruments, namely , measuring apparatus and instruments for use in the chemicals, oil, gas and power generation industries, namely, dry additive scales, bulk weight systems comprising scales, railcar scales, truck scales and electrical load cells; signaling apparatus and instruments, namely, signaling apparatus and instruments for use in the chemicals, oil, gas and power generation industries, namely, coriolis flow meters, orifice plate flow meters, high/low level switches for monitoring and controlling liquids, powders or pellets in tanks, vessels, containers or silos, hydrocarbon detectors and smoke detectors; supervision apparatus and instruments, namely, for use in the chemicals, oil, gas and power generation industries, namely, distributed control apparatus and instruments comprising micro-processor based hardware and software used to monitor the status of industrial processes, namely, power generation, electrical distribution and oil and gas processing, programmable logic controllers, data archiving apparatus and instruments comprising electronic recorders for storing and archiving information in the field of power system faults and laboratory information, infrared flame detectors, remote cameras, video monitors and personnel mustering apparatus and instruments comprising electronic card and badge readers and scanners; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely, electrical switches, electrical conductors, electrical transformers and voltage regulators; magnetic data carriers, namely, blank magnetic data carriers; recording discs, namely, blank record discs, blank recordable DVDs, blank recordable CDs, blank recordable optical discs; data processing apparatus and instruments, namely, computers, interface cards for data processing equipment in the form of printed circuits; computer hardware; computer software, namely, computer software for use in the chemicals, oil, gas and power generation industries for scheduling, monitoring, analyzing, controlling and recording production processes and controlling inventories, but not including computer software for dental use

(8) Medical apparatus and instruments, namely, nebulizers for respiration therapy, inhalers sold empty for medical purposes, inhalers sold empty for therapeutic purposes

(9) Apparatus for lighting, namely, electric light bulbs, electric lighting fixtures, florescent lighting tubes; heating apparatus, namely, central heating boilers and radiators, heating apparatus for defrosting windows of vehicles; refrigerating machines; drying apparatus, namely, industrial drying machines for heating and dehumidifying for use in the chemicals, oil, gas and power generation industries; ventilating apparatus, namely, ventilators for use in the chemicals, oil, gas and power industries; water supply apparatus, namely, metered valves and water filters for use in the chemicals, oil, gas and power generation industries; apparatus for sanitary purposes, namely, pipes being parts of sanitary facilities, ozone sanitizers for air and water

(10) Rubber, gutta-percha, gum, namely, rubber gum; asbestos, mica and goods made from these materials, namely, shock buffers of rubber for industrial machinery, rubber tubes and pipes, rubber sheets, asbestos fabrics, asbestos nets, asbestos paper, mica for electrical insulation; plastics in extruded form for use in manufacture; films, namely, film used as an industrial or commercial packing; stopping materials, namely, cellulose acetate film used as an industrial or commercial packing material; plastics and synthetic resins in semi-processed form; extruded plastics in the form of bars, blocks, pellets, rods, sheets and tubes for use in manufacturing; plastic film for industrial and commercial packing use; plastic in sheet, rod, film and tube form; semi-worked synthetic plastic components and synthetic resin components as semi-finished products in the form of pellets, rods, foils, films and sheets; semi-finished acrylic plastics substrates in molded form for use in manufacture

(11) Building materials, namely, semi-worked woods, particle boards, marble, reinforcing materials not of metal for building purposes, concrete blocks, bricks, non-metal ceiling panels, planks, slabs of polyvinyl chloride kitchen work tops and work surfaces; kitchen and bathroom tiles, namely, non-metal floor tiles, non-metal tiles, plastic tiles; non-metallic pipes and fittings thereof

SERVICES

(1) Business management; business administration; advertising the goods and services of others; rental of advertising space

(2) Financial and financing services namely provision of loans

(3) Building construction and repair services; Repair and installation of drainage and PVC piping systems

(4) Refining services, namely, fuel and oil refining; material treatment services in connection with recycling, treatment of materials for the manufacture of ceramic goods; electricity generation services; power generation services; fuel generation services, namely, fuel treatment services; recycling services, namely battery recycling, electronics recycling, glass recycling, paper recycling, plastic recycling, waste recycling, textile recycling, water recycling, energy recycling services that capture and convert wasted energy into electricity and useful steam

(5) Scientific and technological services, namely, research and design relating thereto in the field of chemicals, oil, gas and power generation industries; industrial design; analysis services, namely, analysis of oil fields, computer systems analysis; research and development of chemical power generation; research and development of oil power generation; research and development of gas power generation; design and development of computer hardware and software, none being for use for dental purposes; engineering services for use in the chemicals, oil, gas and power generation industries; exploration services, namely, oil and gas exploration and under water exploration; conducting geological surveys; geological services, namely, geological prospecting, geological estimations and research; drafting of plans and engineering drawings for others in connection with chemical, oil, gas and power generation industries; analytical services, namely, performance of chemical and oil analysis and computer systems analysis, but not computer systems analysis for dental purposes; technical consultation in the field of chemical plant engineering, namely, testing and evaluation of chemical plant equipment, machinery and apparatus to improve performance and efficiency of such equipment, machinery and apparatus

(6) Horticulture services

(7) Exploitation of intellectual property, namely, licensing of intellectual property; technology licensing services, namely, patent licensing and computer software licensing; all of the foregoing to third parties

ROAD HAZARD RATING SYSTEM LOW MODERATE HIGH VERY HIGH EXTREME

Image Description (Vienna)

- Rhombs or squares standing on one of the corners thereof
- More than two quadrilaterals, inside one another
- Several quadrilaterals juxtaposed, joined or intersecting
- Yellow, gold
- Green
- Blue
- Red, pink, orange

Colour Claim

Colour is claimed as a feature of the trade-mark. The trademark includes the text: "Road Hazard Rating System"; and a series of 5 yellow diamond shapes with coloured borders, arranged in a sequence with the coloured borders oriented from left to right, with a yellow diamond with a green border, a yellow diamond with a blue border, a yellow diamond with a yellow border, a yellow diamond with an orange border and a yellow diamond with a red border.

GOODS

(1) Computer software, namely computer software for road hazard monitoring applications, namely: database software for recording, tracking, analyzing, evaluating, and categorizing road hazards.

(2) Computer software, namely computer software for use in controlling, managing and remote diagnostic testing of signalling devices, namely illuminated signs, information boards, display screens, LED screens and electronic visual warning signs used to communicate road hazard information and road hazard warnings to the users of private, public, and joint private/public road and highway systems.

(3) Publications, namely, user manuals, instruction guides, and reference guides, to support users of road hazard monitoring database software.

(4) Signs, namely, metallic (luminous, non-luminous, mechanical and non-mechanical) warning signs; non-metallic (luminous, non-luminous, mechanical and non-mechanical) warning signs; internally illuminated, edge-lit LED warning signs; externally illuminated, edge-lit LED warning signs ; solar-powered internally illuminated, edge-lit LED warning signs, solar-powered externally illuminated, edge-lit LED warning signs; remote controlled internally illuminated, edge-lit LED warning signs; remote externally controlled, illuminated, edge-lit LED warning signs; internally controlled, illuminated, edge-lit LED warning signs; dynamic/variable message signs; information boards, display screens, LED screens and electronic visual warning signs; liquid crystal display monitors and screens; liquid crystal display signs; LED monitors and screens; and digital warning signs used to communicate road hazard information and road hazard warnings to the users of private, public and joint private/public road and highway systems.

(5) Computers used to communicate to road hazard warning signs by means of telephone, radio, computer networks, wifi, and wireless and infrared digital transmission technologies.

(6) Computers used to communicate road hazard information and road hazard warnings to the users of private, public and joint private/public road and highway systems by means of telephone, radio, computer networks, wifi, and wireless and infrared digital transmission technologies.

GOODS

A kit comprised of chemical reagents for genetic research and cushions, not for medical use; adhesives for plastic films; adhesives for boards for semiconductor wafers; photographic supplies, namely, photographic sensitizers, photographic dry plates, photographic developers, flash powder, photographic fixers, unexposed photographic films; unprocessed plastics [plastics in primary form]; photosensitive polyimide solutions for semiconductors and parts of electronic products; carbon nanotubes, namely, tubular/cylindrical carbon molecules used in electronic, mechanical and biochemical applications; non-woven fabric for absorbing oil consisting of polypropylene fibers in the form of sheet, roll, small cube and string; absorbent for eliminating radioiodine and methyl iodide for use in the nuclear power and radiation facilities; catalyst for use in producing xylene; photosensitive polymer solution for use in liquid crystal displays for flattening positive-type siloxane series of photosensitivity for TFT displays; reagents for gene expression analysis not for medical use; reagents for genotyping not for medical use; reagents for genetic research; chemical reagents for gene expression analysis not for medical use; chemical reagents for genotyping not for medical use; chemical reagents for genetic research not for medical use; chemical reagent kits for genetic research not for medical use; photosensitive printing plates; unprocessed synthetic resins and plastics; carbon in fibrous or yarn like form in the nature of reinforcing additives for plastic materials ; dyestuffs for use in dyeing fiber yarn, textile and silk; paints for industrial equipment and machinery; printing inks; synthetic resin paints; a kit comprised of chemical reagents for genetic research and cushions, for medical use; veterinary preparations, namely, interferon preparations for dogs and cats; sanitary preparations, namely, disposable diapers; metalworking machines and tools; chemical processing machines and apparatus, namely, presses, agitating machines, drying machines, absorbing machines, mixing machines, blending machines, dust collecting machines, sintering machines, calcining machines, sorting machines, granulating machines, extracting machines, emulsifying machines, kneading machines, roasting machines, disintegrators, reaction vessels, partial condensers, separating machines, grinding mills, dissolving machines, filtering machines; textile machines and apparatus, namely, silk yarn re-reeling machines, cocoon drying machines, silk yarn testing machines, silk yarn bundling machines, silk yarn reeling machines; cocoon boiling machines, cocoon-waste treating machines, chemical fiber drying machines, staple fiber cutting machines, chemical fiber purifying machines, chemical fiber spinning machines, yarn singeing machines, yarn winding machines, yarn carding cans, yarn reeling machines, fiber blowing and scutching machines, yarn warping machines, yarn slivering and combing machines, spinning frames, roving machines, carding machines, yarn twisting machines, yarn drawing machines, automatic looms, manual looms, special weaving looms, power looms, fish-netting machines, embroidery machines, rope making machines, braiding machines, hosiery looms, lace making machines, felt milling machines, felt carding machines, textile calendaring machines, raising machines for textile treating, spray damping machines for textile treatment, singeing machines, high pressure degumming pans, wet decatizing machines, dip-dying machines, textile scutching machines, textile making-up machines, textile washing machines, printing machines, hot air driers, textile tentering machines, palmer felt calendars, continuous scouring and bleaching machines, rotary presses; lumbering, woodworking, and veneer and plywood making machines and apparatus , namely, veneer manufacturing machines, plywood finishing machines, plywood drying machines, plywood presses, plywood clipping machines, plywood jointing machines, plywood gluing machines ; printing machines; bookbinding machines; printing and bookbinding machine apparatus, namely, intaglio printing machines, typecasting machines, photogravure printing presses, matrices, boxes for matrices, phototypesetting machines, composing machines, photo-engraving machines, typographic presses, planographic printing machines; painting machines; packaging machines; wrapping machines; plastic processing machines and apparatus, namely, compression moulding machines, extrusion moulding machines, injection moulding machines, plastic moulds; semiconductor manufacturing machines; semiconductor manufacturing systems, namely, semiconductor wafer processing equipment; rubber manufacturing machines, namely, rubber mixing machines, rubber forming machines, rubber mixing rolls, rubber moulds; pneumatic machines and instruments, namely, centrifugal pumps, reciprocating pumps, rotary pumps, axial flow pumps, mixed flow pumps, vacuum pumps, centrifugal blowers, rotary blowers, axial flow blowers, turbo blowers, centrifugal compressors, reciprocating compressors, rotary compressors, axial flow compressors, turbo compressors; hydraulic machines and instruments, namely, centrifugal pumps, reciprocating pumps, rotary pumps, axial flow pumps, mixed flow pumps, vacuum pumps, centrifugal blowers, rotary blowers, axial flow blowers, turbo blowers, centrifugal compressors, reciprocating compressors, rotary compressors, axial flow compressors, turbo compressors; machines for dispensing adhesive tapes in the nature of materials for electronic circuits; adhesive tapes in the nature of materials for electronic circuits; machine elements not for land vehicles, namely, shafts, axels, spindles, shaft bearings, shaft couplings, shaft connectors, bearings, idling pulleys, pulleys, cams, reversing gears, reduction gears, hydraulic accumulators, hydraulic intensifiers, belt pulleys, power transmission belts, toothed wheels and gears, speed change gears, fluid couplings, hydraulic torque converters, links, roller chains, pneumatic shock absorbers, spring shock absorbers, spring-assisted hydraulic shock absorbers, spiral springs, laminated leaf-springs, cone brakes, disc brakes, band brakes, block brakes, angle valves, ball valves, cocks, automatic control valves, butterfly valves; waste compacting machines; waste compacting apparatus, namely, machine tools for removing waste materials; waste crushing machines; starters for motors and engines; AC motors and DC motors, not including those for land vehicles, namely, AC motors for use in household and housing equipment and systems and for use in industrial machines and DC motors for air-conditioning installations and units, refrigerators and washing machines; parts for AC motors and DC motors, namely, compressors; AC generators [alternators]; DC generators; printing plates and machines for processing printing plates; photosensitive relief printing plates and machines for making printing plates; tweezers; hand tools; computer hardware and computer programs for use in drawing; computer hardware and computer programs for use in drafting; lifesaving apparatus and equipment, namely, life nets, lifebelts, life jackets and life-buoys; laboratory apparatus and instruments, namely, DNA chips for the purpose of experiment and analysis and research, fluorescent scanners for DNA microarrays, micro pipetters, constant-temperature chambers for bio-shakers and constant temperature shakers, hybridization chambers, fixed holders for holding micropipette chips, bio-shakers and constant temperature shakers, water baths, constant-temperature tanks, spin cyclers, centrifugal dryers, degasifiers, aspirators, thermal cyclers, all for genetic research, laboratory and analysis use, and medical use; photographic instruments, namely, photo-developing, printing, enlarging and finishing machines; optical apparatus and instruments, namely, metallurgical microscopes, biological microscopes, reflectors for microscopes, prisms for microscopes, polarizing microscopes; color filters for liquid crystal displays; measuring and testing machines and instruments, namely, standard-unit measuring machines, derived-unit measuring machines, precision measuring machines and instruments, automatic adjusting/regulating machines and instruments; material testing machines and instruments, surveying machines and instruments, astronometric measuring machines and instruments, electronic charts for identifying hiding-power of paint, thermosensitive temperature indicator strips, test pieces for rust formation testing; power distribution and control machines and apparatus, namely, electric switches, electric relays, circuit breakers, power controllers, current rectifiers, electric connectors, electric circuit closers, electric capacitors, electric resisters, local switches, power distributing boxes, plug boards, fuses, lightning arresters, electric transformers, induction voltage regulators, electric reactors, rotary converters, phase modifiers; electric wires and cables; telecommunication devices and instruments, namely, portable radio communication machines, aeronautical radio communication machines, multi-channel radio communication machines for fixed stations, single-channel radio communication machines for fixed stations, marine radio communication machines and marine radio machines, on-board computers being navigation devices for vehicles, radio direction finders, radar machines, loran navigation machines, compact disc players, tape recorders, digital cameras, video cameras, videodisc players, videotape recorders, DVD players, DVD recorders, aerial antennas, cabinets for use in placing telecommunications devices, coils, magnetic tape erasers, magnetic tape cleaners, loudspeakers, electric capacitors, electric resistors, blank magnetic tapes for tape recorders, blank video tapes, indicator lights, electrical phonomotors, headphones, electrical transformers, microphones, optical fibers; electronic machines, devices and instruments, namely, computer hardware, electronic semi-conductors, flexible printed circuit boards, radio frequency identification tags; computer software for water purification and waste water reclamation installations and devices, namely, software for the data collection, normalization and management of reverse osmosis membranes in industrial plants; magnetic cores; resistance wires; electrical conductors for use in making contact with non-metallic parts of semiconductors, electrolytes, vacuums, electrochemical cells and rechargeable batteries; gloves for protection against accidents; dust masks; spectacles, namely, eyeglasses; semi-conductors; flexible printed circuit boards with copper foil; flexible printed circuit board; color filters for liquid crystal displays; anti-glare filter for attachment to the front of computer display terminals; optical fibers for optical communication cables; lithium-ion batteries and cells for mobile phones, automobiles and computer hardware; fuel batteries and cells for mobile phones, automobiles and computer hardware; solar batteries and cells for mobile phones, automobiles and computer hardware; separator films for lithium-ion batteries and electrodes; radio frequency identification tag; optical apparatus and instruments, namely, eyeglasses, eyeglass lenses, contact lenses; sunglasses; DNA chips for the purpose of experiment, analysis and research; computer hardware; computer software for database management, for computer aided mechanical design, for data processing, for operating system programs, and for pattern making of clothes, grading and making of clothes; CAD software for apparel; medical machines and apparatus, namely, DNA chips for genetic testing, DNA chips for testing, DNA chips for medical and diagnostic use, fluorescent scanners for DNA microarrays, micropipettes, constant-temperature chambers for bio-shakers, hybridization chambers, fixed holders for holding micropipette chips; bio-shakers, constant-temperature shakers, water baths, constant-temperature tanks, spin dryers, centrifugal dryers, degasifiers, aspirators, thermal cyclers, catheters for medical use, bypass tubes for medical use, hem dialysis apparatus, guidewire adapted for medical use, synthetic blood vessel, blood purification apparatus for use in the treatment of septicemia, supporters for medical purposes, x-ray CT scanners, spectacles and goggles for defending from x-rays; protective gloves for medical surgical use; catheters for medical use; bypass tubes for medical use; hemodialysis apparatus; chemical reagents for genetic diagnosis (medical use only); chemical reagents kits for genetic diagnosis (medical use only); guidewire adapted for medical use; synthetic blood vessel; blood purification apparatus for use in the treatment of septicemia, namely, dialyzers, blood circuits for artificial kidneys, blood purification apparatus for eliminating endotoxin, hemofilter, indwelling catheter for accessing blood; ankle supports for medical use; air-conditioners for household use and air filters therefor; air conditioners for automobiles and air filters therefor; air filters for industrial installations, namely, air filters for industrial air purifiers and air filters for industrial ventilating units; heating furnaces [for industrial purposes], industrial humidifiers, industrial air purifiers, industrial dehumidifiers, locally induced air-conditioners [for industrial purposes], central air-conditioning installations [for industrial purposes], radiators [for industrial air-conditioning purposes], window-mounting air-conditioners [for industrial purposes]; waste water treatment tanks [for industrial purposes]; septic tanks [for industrial purposes]; garbage incinerators; solar water heaters ; electric lamps; household electro thermic appliances, namely, laundry dryers, humidifiers, air purifiers, dehumidifiers, electric fans, water ionizers, electrically heated carpets, electric cooking pots, electric coffee makers, Japanese electric leg-warming apparatus, namely, electric kotatsu, electric cooking stoves, electric radiant heaters, electric foot warmers, electric toasters, Japanese hand warming apparatus, namely, electric hibachi, electric sleeping mattresses, electric kettles, electric blankets, electric refrigerators, electric freezers, electric cooking ovens, microwave ovens, electromagnetic induction cookers, futon driers, hair dryers, hot plates, range hoods; household tap-water filters; bathtubs, showers; waste water treatment tanks for household purposes; septic tanks for household purposes; water filtering units for industrial use; water purification units for industrial use; water and wastewater treatment equipment, namely, cartridge filtration units and replacement filter cartridges, reverse osmosis filtration, purification, and desalinization units and replacement reverse osmosis membrane filter cartridges, and demineralization units; reverse osmosis membranes and modules for the use of desalination of seawater and water treatment; organic electroluminescent (EL) lighting apparatus, namely, EL nightlights, EL backlighting for use in cell phones, EL backlighting for use in computers, personal computers, computer display monitors and television sets, EL lights for automobiles; air filters for industrial installations; shower heads; water purification units for home use; water filtering units for home use; machine elements for land vehicles, namely, axles and spindles for land vehicles, shaft bearings for land vehicles, shaft couplings and connectors for land vehicles; AC motors and DC motors for land vehicles [not including 'their parts']; vessels and their parts and fittings, namely, cargo ships, passenger ships, fishing boats, naval vessels, air-cushion vehicles, screw propellers; aircraft and their parts and fittings; railway rolling stock and their parts and fittings, namely, railway rolling stock, bodies of railway cars, wheels of railway cars, undercarriages of railway cars, chassis of railway cars; automobiles and their parts and fittings; two-wheeled motor vehicles, namely, bikes, scooters, bicycles and their parts and fittings; carbon fibers for use for apparatus for locomotion by land, air, water or space, namely, aircraft, automobiles and boats; food wrapping plastic film for household use; garbage bags of paper [for household use]; garbage bags of plastics [for household use]; cardboard; garbage bags of plastics for household use; food wrapping plastic wraps; plastic bags for wrapping; plastic film for wrapping; Ion-exchange filter paper for industrial use; electrical insulating materials for parts of electric and electronic products; carbon fibers [fibres]; plastic sheeting for agricultural purposes; condenser paper; plastic semi-worked products for use as material in the form of pellets, rods, foils, foams, fibers, films and sheets, for industrial machines and sundry articles; rubber [raw or semi-worked]; polyolefin foam sold in the sheet form of use in the further manufacture of goods, namely padding or shock absorbing material for car interiors or display packaging, heat insulating material for the pipes of air-conditioners or in civil engineering field and material for joint filler, gaskets, mats, toys or sporting goods; synthetic resins (semi-finished products), for industrial machines and sundry articles; plastic substances, semi-processed, for industrial machines and sundry articles; synthetic resin and synthetic resin plastics in the form of sheets, films, tubes, pipes, blocks and rods, for industrial machines and sundry articles; plastic films for use in parts of electric and electronic products, optical materials, construction materials, manufacturing processes, packaging, printing, radio frequency identification and decoration; plastic sheets for use in parts of electric and electronic products, optical materials, construction materials, manufacturing processes, packaging, printing, radio frequency identification and decoration; processed films for use in parts of electric and electronic products, optical materials , construction materials, manufacturing processes, packaging, printing, radio frequency identification and decoration, namely evaporated films, metalized films, resin coating films; plastic film for agricultural purposes; prepregged material made of carbon fibre, namely, resin-impregnated carbon fibres in sheet form for industrial use; moldable carbon fibers for use in the production of other products; plastic composite materials reinforced with carbon fibres in the form of profiles, boards, sheets, blocks, rods, powder, and pellets for use in manufacturing for industrial purposes; synthetic rubbers of the polysulfide polymer type and compositions containing these materials, and for industrial raw or partly prepared materials, namely organic sulfur-containing materials, polyesters, polyurethane, plasticizers of the ester and acetal type; insulating materials, namely, photosensitive polymer solutions for liquid crystal displays; adhesive tapes and sheets for use in manufacturing semiconductors; copper clad laminate for flexible electronic circuit boards; industrial packaging containers of leather; clothing for domestic pets; bags, namely, folding briefcases, shoulder bags, gladstone bags, Japanese wicker trunks, namely, koori, briefcases, suitcases, trunks, handbags, boston bags, schoolchildren's backpacks, backpacks, rucksacks; pouches, namely, card cases, notecases, shopping bags, wheeled shopping bags, key cases, wallets, commutation ticket holders, business card cases; vanity cases [not fitted]; umbrellas and their parts ; leather and fur (unworked or semi-worked); suede and synthetic suede and goods made from these materials, namely, trunk bags, travelling bags, hand bags, shoulder bags, purses, wallets and pouches, namely, card cases, shopping bags, wheeled shopping bags, key cases, commutation ticket holders, business card cases, vanity cases not fitted; gypsum; ceramic building materials, namely, ceramic tiles for wall, floor or ceiling, ceramic drain pipes; ceramic bricks; linoleum building materials for wall, floor and ceiling; plastic building materials, namely, plastic for use in wall, floor and ceiling; synthetic building materials, namely, synthetic boards, for wall, floor and ceiling, soundproofing materials for floors, walls and ceilings, and synthetic flooring materials; rubber building and construction materials, namely, rubbers for wall, floor and ceiling; plaster [for building purposes]; lime building and construction materials for wall, floor and ceiling; synthetic resin materials for use in defending that walls chip and shed; ceramics blocks; tiles for balconies and road paving; binding agents for stones; non-metallic materials used for buildings/construction, namely, bricks, tiles, plates, mortars, synthetic boards, synthetic paving materials for floors or walls; liquid polysulfide polymer used for caulking, coating, and as a sealant used in the transportation and construction industries; synthetic plaster for building materials; building materials made of carbon fiber reinforced plastics in the form of board, tube, cloth and net; raw textile fibers; carbon fibers [fibres] for textile use; cotton waddings for clothes; cotton batting for futon; netting for fishing nets and earth collapse or landslide of chemical fibers; tents for mountaineering or camping; staple fiber for bedding, cotton waddings for cloths and spun yarn; raw materials of fibrous textiles; textile fibers for apparels and clothing; ion-exchange fibers in the form of staple, filament and cut fibers for industrial use; fishing net; threads and yarns for apparels and clothing and textile; woven fabrics for apparels and clothing; knitted fabrics for apparels and clothing; felt and non-woven textile fabrics for use in apparels and clothing, non-woven textile fabrics for air filters, diapers of non-woven textile fabrics, sheets of non-woven textile fabrics for use in civil engineering and absorbing oil; fabrics in pieces and rolls for wiping cloth and cleaning cloth; clothing, namely, evening dresses, school uniforms, children's wear, jackets, jogging pants, sweat pants, suits, skirts, ski jackets, ski pants, trousers, smocks, formalwear, overcoats, topcoats, mantles, raincoats, cardigans, sweaters, vests, waistcoats, open-necked shirts, cuffs, collars, sport shirts, blouses, polo shirts, suit shirts, jackets made from imitation leather or suede or synthetic suede, coats made from imitation leather or suede or synthetic suede, suits made from imitation leather or suede or synthetic suede, skirts made from imitation leather or suede or synthetic suede, nightwear, nightgowns, negligees, Japanese sleeping robes [nemaki], pajamas, bath robes, underwear, camisoles, corsets, undershirts, chemises, drawers, underpants, slips, panties, shorts, briefs, brassieres, petticoats, swimwear, bathing suits, swimming caps, bathing caps, sash bands for kimono [obi], bustle holder bands for obi [obi age], bustles for obi-knots [obi age-shin], waist strings for kimonos [koshihimo], undershirts for kimonos [koshimaki], undershirts for kimonos [juban], tightening-up strings for kimonos [datejime], wrap belts for kimonos [datemaki], full-length kimonos [nagagi], short overcoat for kimono [haori], string fasteners for haori [haori-himo], pleated skirts for formal kimonos [hakama] , detachable neckpieces for kimonos [haneri], sleep masks, aprons, collar protectors, socks, stockings, puttees, gaiters, fur stoles, shawls, scarves, Japanese style socks [tabi], Japanese style socks [tabi covers], gloves, mittens, baby diapers of textile, neckties, neckerchiefs, bandanas, supporters for keeping warmth for arms, wrists, legs, hands and ankles, mufflers, ear muffs, hoods, sedge hats, nightcaps, caps and hats, garters, sock suspenders, suspenders, waistbands, belts; working uniforms, namely, uniforms for medical personnel, military uniforms, working overalls, work boots; clothes for sports, namely, anoraks, karate suits, uniforms, kendo outfits, judo suits, ski suits, headbands, wind jackets, stockings, wristbands; clothes for sports; trousers, pants, coats, jackets, tie, hat, belt, headband, glove, lounging gown, overcoat, socks, sweater, swimsuit, pajama, casual dress, shirt, t-shirt, singlet, underwear, bra, blazer, skirt, stocking, sweaters, skirts, vests, blouses, short pants, cardigans, leg warmers, spats, scarves, culottes, pullovers, shawls, jump suits, swimsuits, knitted mufflers, panty hose, knitted pants, outer shirts, jackets, socks, woven pants, hats, leotards, overalls, knitted gloves, jackets with vests, parka, mufflers, belts, tights, T-shirts, knitted socks, knitted panty hose, dance tights; sports equipment, namely, baseball gloves, baseballs, softballs, rubber baseballs, batting gloves, backstops, baseball bats, baseball bat cases, baseball bases, catchers' masks, baseball mitts, baseball chest protectors, shoulder pads, shin pads and guards, tubes for ball games, nets for ball games, knee pads and guards, discuses for athletic sports, throwing circles, starting blocks, crossbars, hurdles, relay batons, hammers, targets, vaulting poles, javelins, tennis balls, badminton shuttlecocks, tennis rackets, guts for rackets, racket cases, table tennis tables, table tennis balls, table tennis paddles, table tennis paddle cases, hockey sticks, hockey shin pads, hockey gloves, hockey pucks, hockey balls, hockey chest protectors, golf bags, golf clubs, golf ball markers, golf tees, golf gloves, golf balls, putting practice mats, bowling gloves, bowling bags, bowling balls, seal skins for skis, skis, ski edges, ski cases, ski bindings, ski scrapers, ski poles, ice skate blades, ice skates, roller skates, boxing gloves, sand bags, punching bags, fist bandages, mouthpieces for boxing, bowstrings, archery gauntlets, archery targets, arrows, archery quivers, bows for Japanese archery [yumi bows], archery bows, sabres, epee, fencing gauntlets, foils, fencing masks, kote gauntlets, kendo bamboo swords, kendo plastrons, kendo wooden swords, kendo masks, pommel horses, gymnastic springboards, gymnastic rings, gymnastic horizontal bars, gymnastic boxes, spring boards, balance beams, parallel bars, rhythmic gymnastics ribbons, rhythmic gymnastics clubs, rhythmic gymnastics ropes, rhythmic gymnastics balls, rhythmic gymnastics hoops, dumb-bells, weight lifting belts, dumb-bell shafts, barbells, swim fins, snorkels, spear guns, sailboards for boardsailing, stationary exercise bicycles and rollers therefore, chest expanders, curling brooms and brushes, prefabricated swimming pools, gateball sticks, surf boards, bags for surfboards, athletic wrist and joint supports, elbow guards, knee pads, see-saws, water skis, squash rackets, skateboards, starting pistols, snowboards, slides, skipping ropes, twirling batons, paragliders, hang gliders, swings, sports whistles, bob-sleighs, rocking horses, line markers for sports fields, lacrosse sticks, rosin; fishing tackle, namely, fishing lures, fishing hooks, fishing lines, fishing reels and rods, fishing tackle boxes , fishing floats, fishing sinkers; athletic sporting goods for bicycle races, namely, shoe soles; fishing floats; fishing lines; fishing rods; lures for fishing.

SERVICES

Design of machinery, apparatus and instruments and their structural parts for use in the automotive and aircraft manufacturing, namely, automotive bodies and propeller shafts, and aircraft bodies, aerofoils and tails; designing of machinery, apparatus and instruments for use in the manufacturing of industrial plastics, fine chemicals for use in the chemical, agricultural and pharmaceutical industries, chemicals for use in the chemical agricultural and pharmaceutical industries, liquid crystal devices for displays for mobile phones, computers, mobile communication terminals and television sets, semiconductors, computers, flexible print circuits, material and substance composition analysis equipment, cells and second cells for mobile phones, automobiles and household capacitors and condensers, automobiles, bikes, scooters and bicycles, cargo ships, passenger ships, boats, fishing boats, naval vessels, tankers, motor boats and ferry boats, railway car bodies and wheels, membrane filtration for water purifying filtration, pharmaceutical products for human use, thread and yarn for textile, and fiber and textile materials for clothing; designing, namely, designing of textile, designing of clothing; computer software design, computer programming, and maintenance of computer software; technical advice relating to performance, operation of computers and automobiles that require high levels of personal knowledge, skill and experience of the operators to meet the required accuracy in operating them; testing, inspection and research of pharmaceuticals, cosmetics and foodstuff; research on building construction and city planning; testing and research on prevention of pollution; testing and research on electricity; testing and research on civil engineering; testing and research on machines, apparatus and instruments for use in the manufacturing of industrial plastics, fine chemicals for use in the chemical, agricultural and pharmaceutical industries, chemicals for use in the chemical agricultural and pharmaceutical industries, liquid crystal devices for displays for mobile phones, computers, mobile communication terminals and television sets, semiconductors, computers, flexible print circuits, material and substance composition analysis equipment, cells and second cells for mobile phones, automobiles and household capacitors and condensers, automobiles, bikes, scooters and bicycles, cargo ships, passenger ships, boats, fishing boats, naval vessels, tankers, motor boats and ferry boats, railway car bodies and wheels, membrane filtration for water purifying filtration, pharmaceutical products for human use, thread and yarn for textile, and fiber and textile materials for clothing; rental of measuring or testing machines and instruments, namely, standard-unit measuring machines and apparatus, derived-unit measuring machines and apparatus, precision measuring machines and instruments, automatic adjusting/regulating machines and instruments, material testing machines and instruments, surveying machines and instruments, astronometric measuring machines and instruments, electronic charts for identifying hiding-power of paint, thermosensitive temperature indicator strips, test pieces for rust formation testing; rental of computers; providing temporary use of non-downloadable computer software for database management, for computer aided mechanical design, for data processing, for operating system programs, and for pattern making clothes, grading and making of clothes; providing temporary use of non-downloadable computer software CAD software for apparel; providing temporary use of non-downloadable computer software for water purification and wastewater reclamation installations and devices; providing temporary use of non-downloadable computer software for the data collection, normalization and management of reverse osmosis membranes in industrial plants; providing temporary use of non-downloadable computer programs for analyzing environment impacts and cost-effectiveness of products and in the manufacturing processes; rental of laboratory apparatus and instruments, namely, DNA chips for the purpose of experiment and analysis and research, fluorescent scanners for DNA microarrays, micropipetters, constant-temperature chambers for bio-shakers and constant temperature shakers, hybridization chambers, fixed holders for holding micropipette chips, bio-shakers and constant temperature shakers, water baths, constant-temperature tanks, spin cyclers, centrifugal dryers, degasifiers, aspirators, thermal cyclers , all for genetic research, laboratory and analysis use, and medical use; rental of drawing instruments.
